COIL DEFENDER

Coil Blast

Coil Blast is a powerful highly concentrated, non acidic cleaner, formulated for heavily contaminated coils.

FEATURES

- Highly concentrated non-acidic coil cleaner
- Strong degreasing action
- Brightens and deodorises coils
- Developed for the most difficult blocked coils

BENEFITS

- Fast foaming action removes dirt, grease, grim and sticky residue
- Easy to apply by simply adding water
- Used on both condenser and evaporative coils

COIL DEFENDER Related Products

Coil Protect is a product applied to cooling and heating coils to stop mould and bacteria growing on the coils. It is applied to clean, dry coils and leaves a thin surface coating which stops microbial growth. The coating is applied every 12 months.

Pan Tablets are a slow release anti-microbial which are placed in the evaporator tray to stop slime growth blocking drain lines. The tablet lasts for 12 months and is replaced when the Coil Protect is reapplied.

Filter Protect is a product applied to filters to extend the life and improve the efficiency of the filter. The filter treatment is applied to clean or new filters and will stop the growth of bacteria and mould from prematurely blocking the filter and reducing efficiency.

DIRECTIONS FOR USE

- Heavy contaminated coils 150ml to 1 litre of water
- Moderate contaminated coils 40mls to 1 litre of water
- Apply from top to bottom with low pressure spray
- Allow foaming action to remove dirt and grim for 3-4 minutes
- Rinse thoroughly with water to remove cleaner from coil
