

Foaming Coil Cleaner is a highly effective expanding foam for cleaning and degreasing HVAC and Refrigeration Coils.

FEATURES

- Non-Toxic and safe to use on indoor coils
- NSF Registered for use in all food and processing areas
- No Odour
- Non-Flammable

BENEFITS

- No specialised or heavy equipment needed
- Easy to apply directly on coil
- Multiple applications from restaurants to hotel rooms
- Excellent degreasing capacity for difficult to reach coils
- Excellent for degreasing coils that are mounted in difficult positions

COIL DEFENDER Related Products

Coil Protect is a product applied to cooling and heating coils to stop mould and bacteria growing on the coils. It is applied to clean, dry coils and leaves a thin surface coating which stops microbial growth. The coating is applied every 12 months.

Pan Tablets are a slow release anti-microbial which are placed in the evaporator tray to stop slime growth blocking drain lines. The tablet lasts for 12 months and is replaced when the Coil Protect is reapplied.

Filter Protect is a product applied to filters to extend the life and improve the efficiency of the filter. The filter treatment is applied to clean or new filters and will stop the growth of bacteria and mould from prematurely blocking the filter and reducing efficiency.

DIRECTIONS FOR USE

- Apply foam evenly to the coil face
- Apply to both sides of the coil
- Allow the foam to dissolve into the coil body (10 minutes minimum)
- If applying COIL TREATMENT wash the residual foam away with water using a spray bottle and dry coil before applying
- If not applying COIL TREATMENT the unit can be turned on after 10 minutes and the condensate will wash residual foam down the drain
