COIL DEFENDER

Passivated Cleaner

Passivated Cleaner is a non-destructive alkaline concentrated HVAC and Refrigeration coil cleaner formulated not to react with any metal surfaces.

FEATURES

- Highly concentrated formulation mixes 100:1 with water
- Strong degreasing capacity
- Odour free
- Non-Toxic and environmentally friendly
- NON-Corrosive

BENEFITS

- Removes grease and dirt from all HVAC and Refrigeration coils
- Safe to use without specialised equipment
- Safe to transport
- Improves system efficiency without destroying heat exchange surface

COIL DEFENDER Related Products

Coil Protect is a product applied to cooling and heating coils to stop mould and bacteria growing on the coils. It is applied to clean, dry coils and leaves a thin surface coating which stops microbial growth. The coating is applied every 12 months.

Pan Tablets are a slow release anti-microbial which are placed in the evaporator tray to stop slime growth blocking drain lines. The tablet lasts for 12 months and is replaced when the Coil Protect is reapplied.

Filter Protect is a product applied to filters to extend the life and improve the efficiency of the filter. The filter treatment is applied to clean or new filters and will stop the growth of bacteria and mould from prematurely blocking the filter and reducing efficiency.

DIRECTIONS FOR USE

- Mix one part passivated cleaner with 100 parts of water
- Apply cleaner using a garden sprayer starting from the top of the coil and allow to soak in
- Apply to both sides of the coil
- Use 5 litres ready to use (50g of cleaner) per square metre of coil body
- Rinse off well with water and repeat if required
